INDEX

ABRAMSON, D. I. and B. FRIEDMAN. Pressor substance in the cortex of the kidney, 1.

Absorption in digestive tract, thyroid gland and, 577.

—— of basic amino acids function of amount fed, 53.

Acetylcholine, central action of, 222.

Acid-base balance of blood serum in hyperthermia, 550.

Acid-base-water balance, 143.

Adaptation energy, 758.

ADES, H. See BROWN, ADES and METTLER, 26.

ADES, H. W., F. A. METTLER and E. CULLER. Functional organization of the medial geniculate bodies in the cat, 1.

ADLER, H. F. and R. D. TEMPLETON. An attempt to correlate transportation and activity in the dog's colon, 2.

——. See GALAPEAUX, ADLER, FERGUSON and TEMPLETON, 72.

ADOLPH, E. F. Heat exchanges of man in the desert, 486.

——. Measurements of water drinking in dogs, 3.

—— and D. B. DILL. Observations on water metabolism in the desert, 369.

Adrenal cortex, influence of adrenal cortex extract on compensatory hypertrophy of, 132.

—— ——, sodium and chloride retaining effect of compounds derived from, 203.

—— cortical hormone, effect of, on reproduction in rat, 88.

—— extract, cortico-, and renal function, 630.

—— ——, refractory state produced by repeated injections of, 90.

—— glands and ovulation, 237.

—— hypertrophy, thyroidectomy, gonadectomy and, 266.

Adrenal insufficiency, circulatory failure in, 659.

—— —— in American monkeys, 705.

Adrenalectomized rabbit, uterine motility in, 752.

—— sloth, blood chemistry in, 701.

Adrenalectomy, experimental renal hypertension and, 224.

Adrenalin and blood lactic acid, evisceration and, 432.

—— and sympathin, intestinal motility under, 424.

—— hypersensitivity in denervated intestinal fistulae, 222.

——, relation of insulin and, to uric acid excretion, 625.

—— shock, cortical hormone in, 668.

Adrenalin-like substance, recovery of, from kidney, 364.

Age, changes in renal function with, 500.

Alcohol and the hunger sense, 248.

ALLEN, L. Volume and pressure changes in terminal lymphatics, 3.

ALLEN, W. M. See HECKEL and ALLEN, 95.

ALLES, G. A. and P. K. KNOEFEL. Physiological actions of phenethylamine and phenethanolamines, 4.

ALTHAUSEN, T. L. and M. STOCKHOLM. Influence of the thyroid gland on absorption in the digestive tract, 577.

Aluminum in nutrition of rat, 640.

Alveolar CO_2, cause of fall in, during quiet standing, 101.

ALVING, A. S. See LEWIS and ALVING, 500.

American Physiological Society, Proceedings, 1.

Amplifier, direct-coupled, 200.

ANDERSON, L. P. See MCGINTY, ANDERSON and MCCULLOUGH, 133.

Androgens as corticosterone substitutes, 193.

——, conversion of, to estrogens in animal body, 121.

Anesthesia and electrical polarity, 27.
——, cyclopropane, effects of, on dogs, 85.
——, effect of, on responses of central sensory system, 140.
Anesthetics, contrast of ether and nembutal as, in cat method of assaying digitalis, 104.
Animal cages, 170.
Anoxemia, effect of, on absorption of glucose by small intestine, 156.
——, —— ——, on gastric secretion, 163.
Anoxia, effect of, on reflex dilatation of the pupil, 207.
Aorta and its branches, pulse wave in, 54.
——, thoracic, pressure and volume pulses of, 7.
——. *See* Blood vessels.
Aortic chemoreceptors in dog, localization and physiologic significance of, 41.
Arminio, J. See Wald, Jeghers and Arminio, 732.
Armstrong, C. W. J. See Cleghorn, Armstrong and Austen, 40.
Arterial pressure and blood flow, vascular factors in, 644.
Ashman, R. and J. L. Gouaux. The mode of action of the cardio-inhibitory substance, 4.
Atonia after transection of brainstem, 115.
Auditory fatigue, 120.
—— stimuli necessary to awaken the sleeper, 477.
Austen, D. C. See Cleghorn, Armstrong and Austen, 40.
Autonomic indicators, different, simultaneous reactions of, 49.
Axons, local excitatory process in, 455.

β HYDROXYBUTYRIC acid utilization by heart and lungs, 272.
Babkin, B. P., C. O. Hebb and M. A. Sergeyev. The parasympathetic-like effect of splanchnic stimulation on pancreatic secretion, 5.
Bachmann, G., J. Haldi, W. Wynn and C. Ensor. The effect of a high glucose and a high fructose diet on the body weight and on the fat, glycogen and nitrogen content of the liver and body of the albino rat, 6.
Bachmann, G. See Haldi, Bachmann, Ensor and Wynn, 86.
Baker, Z. and H. E. Himwich. Effect of nicotine on the oxidation of glucose, 6.
——. See Fazekas, Baker and Himwich, 62.
Baldes, E. J. See Herrick, Cady, Baldes and Mann, 97.
Baldes, J. F. See Essex, Herrick, Baldes and Mann, 60.
Ballin, R. and L. N. Katz. Simultaneous registration of the pressure and volume pulses of the thoracic aorta, 7.
Barbiturate poisoning, acute, treatment of, by "lavage du sang," 46.
Barelare, B., Jr., L. E. Holt, Jr. and C. P. Richter. Influence of vitamin deficiencies on appetite for particular foodstuffs, 7.
——. See Richter and Barelare, 170.
Barker, S. B. Hyperthyroidism and carbohydrate metabolism in the depancreatized dog, 8.
——. See Bodo, Barker and Benaglia, 18.
Barnes, R. H. The utilization of β hydroxybutyric acid by the heart in the heart-lung preparation, 8.
——, E. M. MacKay, G. K. Moe and M. B. Visscher. The utilization of β hydroxybutyric acid by the isolated mammalian heart and lungs, 272.
——. See MacKay and Barnes, 131.
Barrera, S. E. and A. Ferraro. Effects of lesions of the posterior longitudinal bundle system in Macacus rhesus, 9.
Barron, L. E. The effect of partial gastric resection and posterior gastro-enterostomy on gastric motility in dogs, 9.
Baumann, C. A. See Rusch, Baumann and Kline, 179.
Baumberger, J. P. Determination of the oxygen dissociation curve of oxyhemoglobin by a new method, 10.

BAZETT, H. C., J. C. SCOTT and F. W. SUNDERMAN. Cardiovascular changes in a hot room, 11.
——. See SUNDERMAN, SCOTT and BAZETT, 199.
BEAN, J. W. and D. F. BOHR. Effects of high oxygen pressure on isolated tissue, 11.
BEAZELL, J. M. and C. R. SCHMIDT. The digestibility of raw potato starch, 12.
——. See SCHMIDT and BEAZELL, 180.
BECK, L. V. and A. N. RICHARDS. The action of cyanide and of oxygen lack on glomerular function in the perfused frog's kidney, 13.
BECKER, T. J. See STORMONT, SHIDEMAN, BECKER and SEEVERS, 197.
BEHRMAN, V. G. See BRASSFIELD and BEHRMAN, 21.
BELASCO, I. J. See NASSET, SCHIFFRIN and BELASCO, 152.
BELDING, H. S. See FIELD, BELDING and MARTIN, 64.
BELLOWS, R. T. Relationship of polydipsia and polyuria in diabetes insipidus, 14.
——. Time factors in thirst, 13.
BENAGLIA, A. E. See BODO, BARKER and BENAGLIA, 18.
BENBOW, J. T. See INGRAM, LADD and BENBOW, 107.
BENDER, M. B. Regeneration of the third cranial nerve in monkeys, 14.
BERKSON, J. and W. M. BOOTHBY. A comparison of the estimation of basal metabolism from (a) "surface area" and (b) the formulation of Talbot, Wilson and Worcester, 15.
BERNSTEIN, A. O. and M. I. GREGERSEN. The diffusion of glucose and sucrose from the cerebrospinal fluid, 747.
BERNTHAL, T. and W. F. WEEKS. The influence of temperature changes at the carotid body upon breathing, 15.
BEST, C. H. and C. COWAN. Heparin and the formation of white thrombi, 15.
——. See CAMPBELL and BEST, 30.
BEVIN, S. See FRIEDGOOD and BEVIN, 71.
BEYER, K. H. Gastric emptying as influenced by benzedrine sulfate, 16.
Bile and its constituents, secretion of, 180.
—— secretion, effect of cinchophen and dehydrocholic acid on, 20.
—— volume output, effect of certain foods on, 121.
BISHOP, C. L. See WINDLE, STEELE, BISHOP and MONNIER, 217.
BLAIR, E. A. Modification of latent addition and recovery processes in nerve through continuous polarization, 16.
——. The effect of brief currents on axons, especially in relation to the postulated nonconducted response, 455.
BLAKE, H. and M. MONNIER. Potentials from the medulla of the cat, 17.
BLALOCK, A. See LEVY, ROBINSON and BLALOCK, 383.
BLANCHARD, E. W. See ROUSE and BLANCHARD, 752.
Blindness, night-, human dietary, 732.
BLOCH, E. and H. NECHELES. The occurrence of acetylcholine in gastric juice, 18.
Blood cells, red, of rabbits, effects of single exposures to benzol vapor on, 174.
—— ——, white, oxygen consumption of, 420.
—— chemistry in adrenalectomized sloth, 701.
——, dogfish, distribution of CO_2 between erythrocytes and plasma in, 63.
—— flow and blood pressure in transplanted kidney, 383.
—— ——, coronary, action of benzyl methyl carbinamine sulfate on, 187.
—— —— in an extremity, effects of intra-arterial epinephrin on, 543.
—— ——, vascular factors in arterial pressure and, 644.
—— ——, venous pressure and distensibility of digital vessels, 29.
—— histamine in anaphylactic shock, 40.

Blood lactic acid, evisceration, adrenalin and, 432.
—— leucocytes, effect of sulfanilamide on, 119.
——, normal antithrombin of, and its relation to heparin, 712.
—— pH responses to experimental procedures, 157.
——, pH values of coronary venous, 441.
—— pipettes, shaking machine for, 63.
——, potassium after nerve excitation, 223.
—— pressure and coronary blood flow during muscular exercise in dog, 60.
—— —— and heart beat measurements, 108.
—— ——, blood flow and, in transplanted kidney, 383.
—— —— determination in children, indirect, 174.
—— ——, differential, 97.
—— —— in adrenalectomized dogs, 40.
—— —— values in street dogs, 88.
——, ratio of arterio-venous differences of substances to quantities secreted by mammary gland, 183.
—— serum, effects of massive doses of insulin on, 608.
—— —— in hyperthermia, acid-base balance of, 550.
—— ——, redissolved dried, use of, for replacement of fluid after hemorrhage, 150.
—— ——, viscosity of, 212.
——, simple methods for identification of, 108.
—— specimens, phytotoxic reactions of, 85.
—— sugar and blood chloride changes during alarm reaction, 181.
—— —— and liver glycogen levels, effects of acetoacetate injections on, 36.
—— —— in relation to hunger periods, 243.
—— —— level before, during and after hunger periods, 180.
—— —— regulation after adrenal inactivation and liver denervation, 18.
—— vessels. *See* Aorta.
—— volume in histamine and surgical shock, 194.
Blood-cerebrospinal fluid barrier of white and negro children, 145.
Blood-perfused mammalian nerves, recovery of, 326.
Bodo, R. C., S. B. Barker and A. E. Benaglia. Blood sugar regulation in animals after adrenal inactivation and liver denervation, 18.

THE AMERICAN JOURNAL OF PHYSIOLOGY

VOLUME 123

BALTIMORE, MD.
1938

CONTENTS

No. 1. July, 1938

Proceedings of the American Physiological Society 1

Experimental Renal Hypertension and Adrenalectomy. *Dean A. Collins and Earl H. Wood* 224

Nitrogen Excretion on a Nitrogen-Free Diet. *Walter H. Seegers* 233

The Experimental Production of Ovulation, Luteinization and Cysts of the Corpus Luteum in Adrenalectomized Anestrous Cats. *H. B. Friedgood and M. A. Foster* 237

Observations on the Blood Sugar Level Before, During and After Hunger Periods in Humans. *W. W. Scott, C. C. Scott and A. B. Luckhardt* 243

The Effect of Alcohol on the Hunger Sense. *C. C. Scott, W. W. Scott and A. B. Luckhardt* 248

The Effect of Calcium on the Output of Sympathin in the Frog's Heart. *K. Lissák* 256

The Excretion of Endogenous "Creatinine" by the Human Kidney. *Thomas Findley, Jr.* 260

The Effect of Combined Thyroidectomy and Gonadectomy on Compensatory Adrenal Hypertrophy in Unilaterally Adrenalectomized Rats. *Isolde T. Zeckwer* 266

The Utilization of β Hydroxybutyric Acid by the Isolated Mammalian Heart and Lungs. *R. H. Barnes, E. M. MacKay, G. K. Moe and M. B. Visscher* .. 272

No. 2. August, 1938

Experiments Concerning the Possibility that Inulin Is Secreted by the Renal Tubules. *A. N. Richards, P. A. Bott and B. B. Westfall* 281

Properties of the Nerve Fibers of Slowest Conduction in the Frog. *H. S. Gasser, C. H. Richards and H. Grundfest* 299

Properties of Mammalian Nerve Fibers of Slowest Conduction. *H. Grundfest and H. S. Gasser* 307

Some Effects of Thymus Removal in Chickens. *George H. Maughan* 319

Recovery of Blood-Perfused Mammalian Nerves. *Helen Tredway Graham and Rafael Lorente de Nó* 326

Quantitative Relationships of Calcium and Cephalin in Experimental Thrombin Formation. *John H. Ferguson* 341

Prothrombin in Chickens. *Fritz Schönheyder* 349

The Effect of the Removal of the Superior Cervical Ganglion on Lachrymal Secretion. *J. P. Maes* 359

The Recovery of an Adrenalin-like Substance from the Kidney. *John R. Williams, Jr. and Edward B. Grossman* 364

Observations on Water Metabolism in the Desert. *E. F. Adolph and D. B. Dill* .. 369

Hunger as a Determinant of Conditional and Unconditional Salivary Response Magnitude. *Glen Finch* 379

The Effect of Altering the Renal Blood Pressure and Blood Flow on the Glomerular Filtration of a Transplanted Kidney in Unanesthetized Dogs. *Sanford E. Levy, Charles S. Robinson and Alfred Blalock* 383

Recovery Cycle of Motoneurons. *Rafael Lorente de Nó and Helen Tredway Graham* 388
The Action of Pituitary Extracts on the Colon of the Cat. *Frederic R. Steggerda, Cesare Gianturco and Hiram E. Essex* 400
Observations on the Mode of Action of Piperidinomethylbenzodioxane (933F). *R. S. Morison and K. Lissak* 404
Changes in Composition of Sweat During Acclimatization to Heat. *D. B. Dill, F. G. Hall and H. T. Edwards* 412
Oxygen Consumption of White Cells from Peritoneal Exudates. *Eric Ponder and John MacLeod* 420
Similarity of Effects of Adrenalin and Inhibitory Sympathin on Intestinal Motility; Sensitization by Denervation. *W. B. Youmans* 424
Adrenalin and Blood Lactic Acid: Effect of Evisceration. *Fred R. Griffith, Jr., Julia E. Lockwood and F. E. Emery* 432
A Comparison of the pH Values of Coronary Venous Blood and of Blood from Other Veins. *Robert M. Moore and Joe Dennis* 441
Potassium Changes in the Functioning Heart Under Conditions of Ischemia and of Congestion. *Joe Dennis and Robert M. Moore* 443
On the Metabolism of Glucose. *Joseph L. Donnelly* 448
The Effect of Brief Currents on Axons, Especially in Relation to the Postulated Nonconducted Response. *Edgar A. Blair* 455
The Progestin Content of the Corpus Luteum of the Sow (Sus Scrofa) During Successive Stages of the Estrous Cycle and Pregnancy. *Gentaro Kimura and William S. Cornwell* 471
Variations in Threshold of Auditory Stimuli Necessary to Awaken the Sleeper. *F. J. Mullin and N. Kleitman* 477
Direct Evidence of Function in Kidney of an Early Human Fetus. *Gladys Cameron and Robert Chambers* 482
Heat Exchanges of Man in the Desert. *E. F. Adolph* 486
Changes with Age in the Renal Function in Adult Men. I. Clearance of Urea. II. Amount of Urea Nitrogen in the Blood. III. Concentrating Ability of the Kidneys. *William Hall Lewis, Jr. and Alf S. Alving* 500
The Rate of Removal of Hemoglobin from the Circulation and its Renal Threshold in Human Beings. *Reuben Ottenberg and Charles L. Fox, Jr* 516
The Effect of Different Per Cents of Protein in the Diet in Successive Generations. *James Rollin Slonaker* 526

No. 3. September, 1938

The Effects of Intra-arterial Epinephrin on the Blood Flow in an Extremity. *Norman W. Roome* 543
The Acid-base Balance of the Blood Serum in Hyperthermia. *Wayne H. Danielson, Robert M. Stecher, Edward Muntwyler and Victor C. Myers* 550
Sustained Hyperlipemia of Dietary Origin in the Dog. *Eunice V. Flock, Warren C. Corwin and Jesse L. Bollman* 558
Observations on Creatinine and Urea Clearances, on Responses to Water Ingestion and on Concentrating Power of Kidneys in Normal, Diabetes Insipidus and Hypophysectomized Dogs. *H. L. White and Peter Heinbecker* 566
Influence of the Thyroid Gland on Absorption in the Digestive Tract. *T. L. Althausen and M. Stockholm* 577
The Effect of Pregnancy and Lactation on Growth in the Rat. *H. H. Cole and G. H. Hart* 589

Removal of Foreign Substances by the Lymphatics of the Snake Lung. *Lois A. Gillilan and Ruth E. Conklin* 598
The Effects in Man and Dogs of Massive Doses of Insulin on the Composition of the Blood Serum. *Ancel Keys* 608
Proliferation of Crop-sac Epithelium in Incubating and in Prolactin-injected Pigeons Studied with the Colchicine Method. *Ernest L. Lahr and Oscar Riddle* 614
Work Performance of Hypophysectomized Rats Treated with Anterior Pituitary Extracts. *Dwight J. Ingle, H. D. Moon and H. M. Evans* 620
The Relation of Insulin and Adrenalin to Uric Acid Excretion in the Rabbit. *S. Porter Miller and Adrian C. Kuyper* 625
Renal Function in the Opossum and the Mechanism of Cortico-Adrenal and Post-Pituitary Action. *H. Silvette and S. W. Britton* 630
Aluminum in the Nutrition of the Rat. *E. Hove, C. A. Elvehjem and E. B. Hart* 640
The Influence of Vascular Factors on Mean Pressure, Pulse Pressure and Phasic Peripheral Flow. *Carl J. Wiggers* 644
A Study of the Circulatory Failure of Adrenal Insufficiency and Analogous Shock-like Conditions. *W. W. Swingle, W. M. Parkins, A. R. Taylor and H. W. Hays* 659
Effect of Adrenal Cortical Hormone upon the Circulatory Collapse of Adrenalin Shock. *W. M. Parkins, W. W. Swingle, A. R. Taylor and H. W. Hays* 668
Effects of Chemical Stimulation of the Carotid Body upon the Reflex Contraction of the Tibialis Anticus Muscle. *William Kaufman* 677
Central Effects of Sodium Sulfide upon Reflex Contraction of the Tibialis Anticus Muscle. *William Kaufman* 687
The Vitamin A Reserve of Fur-bearing Animals. *Arthur D. Holmes, Francis Tripp and G. Howard Satterfield* 693
Blood-Chemical and Other Conditions in Normal and Adrenalectomized Sloths. *S. W. Britton, R. F. Kline and H. Silvette* 701
Adrenal Insufficiency in American Monkeys. *S. W. Britton, H. Silvette and R. F. Kline* 705
The Normal Antithrombin of the Blood and Its Relation to Heparin. *Armand J. Quick* 712
Renal Clearances of Iopax, Neoiopax and Skiodan in Man. *Willie W. Smith and Hilmert A. Ranges* 720
The Effect of Bilateral Ligation of the Lumbo-Adrenal Veins on the Course of Pancreas Diabetes. *Harold E. Himwich, Joseph F. Fazekas and Stevens J. Martin* 725
An Experiment in Human Dietary Night-Blindness. *George Wald, Harold Jeghers and Joseph Arminio* 732
The Diffusion of Glucose and Sucrose from the Cerebrospinal Fluid. *Albion O. Bernstein and Magnus I. Gregersen with the assistance in part of Mr. Kammer* 747
The Influence of Calcium and Potassium Salts on the Uterine Contractions in Normal and Adrenalectomized Rabbits. *Sylvia B. Rouse and E. W. Blanchard* 752
Experimental Evidence Supporting the Conception of "Adaptation Energy." *Hans Selye* 758
Respiratory Effects from the Application of Cocaine, Nicotine, and Lobeline to the Floor of the Fourth Ventricle. *Hayden C. Nicholson and Sidney Sobin* 766
Index 775
